4. VISION, MISSION AND VALUES

4.1 VISION STATEMENT

AN INSPIRING VISION OF A PREFERRED FUTURE. IT IS NOT BOUND BY TIME AND SERVES AS PURPOSE AND FOUNDATION FOR STRATEGIC PLANNING.

5. BACKGROUND RATIONALE, PROGRESS AND CORRECTIVE MEASURES

5.1 BACKGROUND

DESCRIPTION OF;

- **PROGRESS AGAINST THE PLAN FOR THE PRESENT**

In the current year 2025 The Incredible hustle Has outline key Performance areas that needs Focus which are (1) Activity Performance; (2) Management; And Management Team and (3) Monitoring of Consequences, these Key Performance Indicators will

propel the business to meet its targets and Manage Tasks, Or Activities Better

- **REVIEW OF PERFORMANCE FOR THE PREVIOUS YEAR (INCLUDING KPIs)**

In the Previous Years, The Incredible Hustle Struggled With Management Performance task Or Management Activities, As It relied So heavily on the External Factors With a lot of it being the Procurement Sector (supply and delivery) And the Tendering Segment, which were Not As Bad, but Needed a lot of outsourcing of Equipment and Purchasing of Material. Time and Management which at the time we did not have the funds necessary to execute those tasks. Since, then we made a lot of progress in terms of the running of operations and have Identified the key areas which we can exploit to balance the Revenue of the company whilst being profitable and productive,

- **CORRECTIVE ACTIONS TO BE TAKEN OR TO BE TAKEN IN THE PRESENT YEAR.**

These are some of the Examples that need to be corrected in the present year;

- (1) **Accounts:** Percentage (%) of the Overdue Expense Needs to be Managed better and balance with regard to revenue we receive on weekly basis;(2) Percentage (%) of the Purchase orders raised in advance, in line with the weekly Revenue generated; (3) Average Cycle of workflow against the Number of Staff working per week;

- (2) **Marketing and Sales:**

(1) New Customer Acquisition Costs; (2) Customer Acquisition Costs (CAC);(3) Average deal Size;(4) Demographic Analysis of Individual (Potential customers) Applying to Become customers and the levels of approvals, rejections and Pending memberships; (5) Status of existing customers; (6) Customer Density; (6) Customer Attribution (Loss of customers /clients); (7) Turnover (e. i Revenue Generated by segments f the customers population; (8) Profitability of Customers by demographic segments of customers and segments of customer by profitability; (9)

- (3) **Manufacturing:** The Overall Equipment Effectiveness (OEE) is a set of broadly accepted Nonfinancial Metrics that reflect Manufacturing success

(1) **OEE** = Availability x Performance x Quality;

(2) **Availability** = Run time / Total time by definition this is the percentage of the actual amount of production time the

machine is running to the production time the machine is available.

(3) **Down Time** = time the building/location/ service/ machine is out of operation due to any reasons (including planned down time such as maintenance or out of season)

(4) **Performance** = total counts/ target counter by definition this is the Percentage (%) of total parts produced on the machine to the production rate of machine.

(5) **Cycle time ration (CTR)** = standard cycle time/real cycle time

(6) **Capacity Utilization**

(7) **Rejection rate.**

(4) PROFESSIONAL SERVICE/OPERATIONAL SYSTEMS & PROCEDURES.

Most Professional Service firms (e. g Management Consultancies; system integrations firms or digital marketing agencies) use three key performance indicators to track the health of the business typically use Professional Services Automation (PSA) software to keep track and manage these metrics.

* Utilization Rate = Percentage (%) of Time employees Spend generating revenue

*Project Profitability = The difference between revenue generated by Project and the cost of delivering the work.

*Project Success rate = Percentage (%) of the Projects Delivered on time and under budget

5.2 RATIONALE OF THE MULTIBRAND

IT DEFINES THE PURPOSE OF THE PRESENT YEAR- WHY THE BUSINESS EXIST IN GENERAL

In the Present year (2025) the company Existence relies on the Marketing & Sales of its retail Products e. g

UNDER FOOD AND LIFESTYLE

- Peanuts
- Fruits & Vegies
- Fat cakes with Mince(meat)
- Cold Drinks
- Snacks and Sweets
- Cigarettes

The sales of each product will depend on the Supply and Demand of each product, for example if the demand is high for Peanuts there will be supply for Peanuts and if There is no demand, there won't be supply. The Business model will rely on the Demand and Supply, since the business is trying to mitigate losses and maximise Profits. As well as **entertainment, art exhibition, music and hosting of personalities**

(HOW THE MULTIBRAND WILL DIRECT ITS EFFORTS THAT WILL ADDRESS POLICY INTENTIONS AND THAT ARE BOTH QUANTITATIVE AND QUANTITABLE)

And depending on the Profitability of the Business, the Business will Expand its Operations To serving Customers and clients With Breakfast and Lunch meals, the following Meals or cuisines Are in consideration in the **short-term (1) Food and Life-Style)**

Breakfast Meals

- (1) Mabele (Sorghum Porridges)
- (2) Sandwiches'
- (3) Fat cakes with Mince(meat)
- (4) Coffee and Tea

Lunch Meals

- (1) Pap/Rice with Pork and tomato relish
- (2) Pap/Rice with Meat and tomato relish
- (3) Pap/Rice, With Chicken/Chicken (Liver, Hearts Tripe; And Feet)
- (4) Homemade Bread, With Cow Tripe
- (5) Homemade Bread, With Sheep/Pig Head

And the **Long-term** But more distant Future, we aim to Establish other Business That are in-line with the multi-brand concept of The Incredible Hustle Pty (Ltd), **including (2) Agro 101 and (3) Business retail**

5.3 PROGRESSS

PROGRESS BASED ON THE PREVIOUS YEAR PERFORMANCE AND ACTIVITIES
The Progress, The Incredible Hustle Has made From the Previous years is as a result of being more result oriented and more focused on the immediate impact of the projects and initiative it has taken as of the year (2025). The Incredible hustle has become results driven on its immediate impact, the company has taken small Projects to determine its input matches its output, for example the establishment of a low costs business (that sells your everyday essentials e. g (Peanuts, Sweets and Biscuits) that is based in the neighbourhood or a low-cost operational truck that serves food and beverages. Those Project Are Aim At elevating The Incredible Hustle Business model to the Public And make it accessible the ordinary Persons, as well as market it in the public spheres, With Marketing We Aim to Be more Present To Our customers and Clients making sure that we serve every need and want the need satisfying.

5.4 CORRECTIVE MEASURES

The Incredible Hustle Corrective Measures Are As result of Not Been Operational and Not being accessible due to many factors, we have since established a more Rigorous Ways to becoming Accessible as well as maintain Our Foot-print in the markets we aim to serve.

These are some of the corrective measures, The incredible Hustle Aim to taking in the year (2025) in respect to making the business and company more prosperous and successful.

CORRECTIVE ACTIONS THAT WILL BE TAKEN TO ADDRESS SHORTCOMINGS OF THE PREVIOUS YEAR

- (1) Selling and Marketing the company or business product.
- (2) Expand the business model and reach other markets which we aim to be part of,
- (3) Improve the management and Management -teams (including Staff),
- (4) Establish a weekly work scheduling and outline every person's role and contribution
- (5) And Maintain High levels of service and products.

6. OBJECTIVES, STRATEGIES, ACTIVITIES AND MEASURES

“SEE ADDENDUM TO THE BUSINESS PLAN- IMPLEMENTATION PLAN

6.1 THREE YEAR TERM OBJECTIVES (FOR THREE YEAR PERIOD)

AS STATED IN THE MEMORANDUM OF AGREEMENT AND ANY ADDITIONAL FOR THREE (3) YEAR PERIOD, THE BUSINESS MUST REFLECT A THREE(YEAR) ROLLING PLAN

- **Ensure proper cleaning and sanitize of surfaces and equipment:** (1) organise your space (ensure easy to clean walls, good lighting and adequate hand-washing facilities, consider a lay-out that prevents cross-contaminations); (2) maintain your equipment (regular disassembling, clean and sanitize equipment like slicer and can openers); (3) store food properly (store food in a designated areas, away from pets, use a storeroom for raw materials if possible and be mindful of specific storage needs requirements)
- **Follow correct cooking and storage temperatures:** (1) follow correct temperatures (cook food to the correct internal temperature to verify chill perishable food promptly in the refrigerator). (2) Prevent cross-contamination

(Use separate cutting-board and utensils for different food types e. g raw meat vs. vegetables; and store raw food below ready-to-eat); (3) store food properly (rinse fresh produce under running water).

- **IMPLEMENT A SYSTEM FOR PREVENTING CROSS-CONTAMINATION AND PETS:** (1) train your staff (make sure all employees are trained in food and safety ,and hygiene practices); (2) know your regulations (understand and comply with all local food and safety and business regulations and apply for necessary permits and licensing; (3) communicate clearly (establish clear hours of duration and manage customers expectations regarding orders and delivering items.

METHODS TO ACHIEVE THE OBJECTIVES ARE THE MEANS FOR TRANSFORMING INPUTS INTO OUTPUTS AND ULTIMATELY OUTCOMES.

EACH OBJECTIVE COULD HAVE A NUMBER OF STRATEGIES DIFFERS IN EACH OF THE THREE (3 YEARS, STATE EACH YEAR SEPARATELY

STRATEGIES CONSIDER THE MOST ECONOMICAL, EFFICIENT AND EFFECTIVE USE OF RESOURCES. TARGETS WITH DATES, MUST BE INCLUDED, MUST BE SPECIFIC FOR ONE YEAR AND INCLUDING BUDGET).

To achieve the objectives in the multi-brand company; The Incredible hustle Pty (Ltd) aims to use operational methods like standardizing process for efficiency and conduct SWOT analysis to identify SWOT for each Brand. For each and every year of operating The Incredible Hustle Pty (Ltd) will use the following Implementation in a three (3) year period Cycle

1. OPERATIONS

- Standardize processes: create consistent, repeatable processes across all brands to improve efficient business and quality control.
- Perform Swot Analysis: conduct strength, weaknesses, opportunity and threats for each brand to identify areas for improvements and capitalize on market opportunities.
- Implement data-Driven decisions: use data and analysis to guide operational decisions, resource allocation and performance tracking across all brands.
- Align operations with strategy: ensures that all operational activities directly support the overall business and brand specific goals.
- Resource allocation: strategically allocate resources to brands or projects that offers the highest potential return on investment

2. MARKETING

3. HUMAN RESOURCE

- Strategic workforce planning: align HR practices like retrenchment and talent development with the company long-term goals.
- Develop a high-performing culture; implements programs that support employee growth, development and performance to drive innovation and profitability.
- Offer competitive compensation and benefits; use mix of competitive salary and other perks to attract and retain top talent.
- Enhance Employee Engagement; Foster a positive work environment through recognition, opportunity for growth and clear communication to improve communication and reduce turnover.
- Adopt HR trends: Stay current with trends like flexible working arrangement, employee well-being programs, the use of AI to support HR functions.

4. COMMUNICATIONS

- Align all communications: Ensure that all internal and external brand messaging aligns with core business objectives and brand identity.
- Establish Clear communications Channels: create and maintain open lines of communications between different departments, brands and leadership.
- Develop a data-driven strategy: use data to understand audience needs and to inform the content and style of our communications for greater impact.
- Customize Messaging: Tailor communications to the specific needs of each brand targets audience while maintaining consistent overarching message.
- Support change management: use Clear and frequent communication to help employees to understand and adopt strategic changes with the organisation.

1. RECRUITMENT OF PROSPECTIVE CLIENTS

What it involves: Identify and contacting potential customer and clients who might be interested in your Products or services, in some cases it might include identifying other markets that have potential to offer returns on investment.

Why is it important: building a customer base is crucial for validating any business idea and generating early revenue.

2. PRE INCUBATION PROCESS

What it involves: A period of assessment and development where start-ups refine their business concept receive feedbacks from mentors and prepares for full incubation program.

Why is it important: this phase ensures that start-ups they have a viable business model before investing their significant time and resources.

3. **INCUBATION PROCESS**

What it involves: The core program of incubation where start-up receives intensive support, access to resource like office space and mentorship and work on their product and service

Why is it important: This phase provides start-ups with necessary infrastructure and guidance to accelerate their growth.

4. **POST INCUBATION:**

What it involves: The period after the Incubation program where start-ups transition to independent operating, continuing to build and grow their business and accessing further funding or support.

Why is it important: This phase focus on establishing a sustainable business model and achieve long-term success.

5. **OBTAINING ALTERNATIVE FUNDING**

What it involves: Seeking additional funding beyond the incubation support, such as venture capital, grants or loans

Why is it important:

Why is it important: Securing alternative funding allows start-ups to scale their operation and reach a wider market.

7. **Log frame**

(Include ACTIVITIES Objectives and Strategies as per 6.1 & 6.2 CONTINUED)

OPERATIONAL INPUTS TO OUTPUTS MATRIX

- kitchen complexity and simplifying our ordering process.

Ensure product quality: conduct a market-research, to understand

- customer preferences and refine our recipes for success.

Get online visibility: set up a free profile on google business profile to get discovered on google search and maps. Create a professional easy-

- to-navigate website with high-quality photos and clear pricing.

8. SWOT Analysis

Formatted: Underline

STRENGTHS (Internal)

- Diversified Revenue Model: Multiple income streams across catering, crop farming, and retail protect the business from seasonal market drops in any single sector.
- Agile Youth Leadership: Led by a driven local entrepreneur (Thabiso Mojaki), ensuring high energy, adaptability, and deep connection to local consumer trends.
- High Profit Margin Focus: A 70% projected gross profit margin achieved by sourcing agricultural inputs efficiently and controlling internal logistics.
- B-BBEE Structural Advantage: 100% black-owned enterprise status maximizes eligibility for government procurement, local municipal tenders, and enterprise development grants.

WEAKNESSES (Internal)

- Capital Constraints: Dependency on securing the R260,000 scaling capital limits immediate large-scale crop production and automated agro-processing.
- Limited Logistics Infrastructure: Shortage of company-owned delivery and cold-chain vehicles restricts the delivery radius for fresh produce and catering.

- Brand Awareness Gaps: As an emerging multi-brand entity, the business faces low initial visibility compared to established corporate competitors in Klerksdorp.
- Small Core Team: Heavy operational reliance on a lean 4-person team creates a high operational burden on leadership during peak catering or harvesting periods.

OPPORTUNITIES (External)

- Local Public Procurement: High demand for local, compliant suppliers to service government departments and municipalities under the PFMA Section 38(j) framework.
- Value-Add Agro-Processing: High market interest in turning raw crops into high-margin, shelf-stable products like jams, sauces, and packaged snacks.
- Import Substitution & Local Buying: Local corporate retailers and Klerksdorp residents are increasingly seeking to purchase fresher, locally grown produce over imported items.
- Enterprise Development Funding: Available funding lines from agencies like Seda, NYDA, and the Department of Small Business Development targeting youth and women-led rural agribusinesses.

THREATS (External)

- Macroeconomic Pressures: High inflation and fluctuating fuel prices directly drive up production, logistics, and input costs (seeds, fertilizer, packaging).
- Unpredictable Weather Patterns: Vulnerability to droughts, frost, and heatwaves can negatively impact crop yields if smart irrigation infrastructure is delayed.
- Intense Local Competition: Established commercial farms and entrenched national retail/catering franchises dominate the North West market.

- Utility & Power Disruptions: Ongoing municipal water and power supply variations present operational risks to both fresh food preservation and agro-processing timelines

Strategic Action Matrix (Turning Analysis into Action)

- SO Strategy (Maximize Strengths + Opportunities): Use 100% B-BBEE compliance and PFMA alignment to aggressively bid for local municipal catering and agricultural supply contracts.
- WO Strategy (Overcome Weaknesses + Leverage Opportunities): Utilize Seda and NYDA grant funding programs to clear the R260,000 capital hurdle to purchase mechanized farming equipment and build out a secure cash runway.
- ST Strategy (Use Strengths to Fight Threats): Use the multi-brand ecosystem to offset agricultural crop losses (due to weather) by accelerating high-margin food retail and catering sales.
- WT Strategy (Minimize Weaknesses + Avoid Threats): Build strategic partnerships with local Klerksdorp transport networks to share logistics costs, reducing capital expenditure on vehicles while lowering transport risks.
- Proactive Next Steps
Would you like me to integrate this SWOT Analysis directly into the
- Risk Management or Marketing Strategy section of your business plan, or should we move on to drafting the Executive Summary?

A multi-brand business strategy involves managing a portfolio of distinct brands under a single umbrella to target different customer segments and market needs. A SWOT analysis of this model reveals the following Key factors;

STRENGTHS (INTERNAL FACTORS)

- **Market share expansion:** multiple brands occupy more, shelf space (physical or digital) limiting competition presence and

increasing the likelihood of a customer choosing a product from a parent company.

- **Targeted customer appeal:** each brand can be positioned with a distinct identity aesthetic and emotional appeal to attract specific demographic or psychographic segments whose needs might not be met by existing brands.
- Risk Mitigation:

9. **Risk Management**

Multi-brand business measures risk in a comprehensive plan that identifies and assess risk across all brands

a. **Risk management plan**

- Identification: identify risk specific to each brand, such as market specific threads operational challenges financial uncertainty and legal or compliance issues.
- Assessment: investigate the likelihood and potential impact of each identified risk often issuing quantitative and qualitative or hybrid approach this helps prioritise when risk needs immediate attention
- Mitigation: develops strategies to address high-priority risk this could involve implementing new technology changing market strategy, diversifying suppliers, or acquire other businesses to balance the portfolio
- Monitoring and reporting: continuously monitoring the effectiveness of risk mitigation strategies and report on the status of risk. The plan should be regularly reviewed and update to account for the changes in the market, operations or new threads

b. **Internal controls**

- Purpose: internal controls are specific day-to-day policies and procedures designed to detect errors and frauds, ensure operational efficiency and promote compliance with laws and regulations
- Examples
- Financial controls: separate bank accounts for each brand, standardize accounting procedures across all brands and regular auditing of each brand's financial performance.
- Operational control: clear lines of authority for brand managers standardize operating procedures for production and supply chain and quality control checks for each product line.
- Compliance control: police to ensure each brand adheres to local advertising standards, data privacy laws and other industry specific regulations.

- Importance: internal controls are operational backbone that executes the risk management plan, without strong controls the best management risk control can fail because necessary safeguard procedures are not in place or are not being followed.

10. Tenant / Client Management

In a multi-brand business involves structured approach to onboarding, supporting and graduating a business based on a clear-criteria, adopting to different needs through various participation modes and using multi-faceted strategies to help them thrive. The key interventions, includes providing resources, mentorship, networking and market access to help them evolve from early-stage ideas to self-sufficient, established brands.

Describe:

- **Entry/ exit criteria**
- **Entry**
 - Alignment with the multi-brand incubators mission and focus areas.
 - Demonstrate viability and scalability of the business model.
 - Clear market need for the product and service
 - Strong and management team.
- **Exit**
 - Reaching redefined milestone for financial growth and self-sufficiency
 - Successful transition to a larger physical space and market independency
 - Completion of the support program duration regardless of the business status.
- **Stages of technology / business incubation support.**
 - Idea / incubation stage: focus on validating the business idea, developing the business plan and creating a minimum viable product (MVP)
 - **Launch-stage:** support with market entry, legal and administrative set-up and initial customer acquisition
 - **Growth-stage:** a formal process_a client transition from the incubator ether to become a partner or to operate independently.
- **Participation modes:**
 - **Full-time(physical):** clients are provided with a physical space and access to all facilities.

- **Virtual or remote:** clients receive mentorship, business planning and networking opportunities without a physical work space.
- **Hybrid:** a combination of physical access to a specific resources like labs and meeting rooms without remote access to most other aspects.
- **Feeder market**
 - **Internal:** leverage existing brands with the multi brand business to create a customer base or a Pilot opportunity for new tenant.
 - **External:** partnering with other companies, research institution, universities to identify and attract new potential tenants.
 - **Geographical:** focus on a specific region or city to build up local ecosystem of tenants or collaborators.
- **Clients' needs:**
 - **Business and strategic planning:** guidance on developing a viable business plan, market strategy and financial projections.
 - **Mentorship and expertise:** access to experience mentors and subject matters experts.
 - **Funding support:** assistance in securing seed funding, angel investment and venture capital.
 - **Operational support:** help with administrative, legal and HR aspects of running a business

Key centre investment with clients / tenants

- **Dedicated support:** assign a dedicated mentor or account manager to each tenant for regular guidance.
- **Training and workshops:** provide regular training sessions on topics like marketing, finance, legal matters and technology.
- **Networking events:** leverage the multi-brand network to provide tenants with early, market access, customer validation or pilot opportunities.
- **Technology and resource sharing:** allow tenants to share or access common resources like labs, prototyping equipment and IT infrastructure.
- **Investment readiness:** assist clients to prepare for investment rounds through due diligence preparation and pitching practice.

11. Revenue Model and Sustainability

The Incredible hustle Pty (Ltd) has a Diversified approach, combining core models like ONE-TIME SALES and SUBSCRIPTION with SUPPLEMENTARY STREAMS such as FRANCHISING / LICENSING and PARTNERSHIPS. A multi-brand strategy that requires a Robust, flexible model that can support different brand types and customer segments, from traditional retail to a subscription-based digital services. The ideal model will leverage the company's intellectual property through brand licensing, build consistent income with subscriptions and use of partnerships to expand reach without significant upfront investment.

CORE REVENUE MODELS

- **ONE-TIME SALES:** a traditional model where a company sell products or services directly to customers for a fee. This is effective for physical products like food, electronics or clothing or for digital product like e-book.
- **SUBCRITION:** a customer can pay a recurring fee for a regular access for a product or service. This can include (products or services) sold by The Incredible Hustle Pty (Ltd), software-as a service (SAAS) or streaming platforms, providing a predictable and a stable revenue stream that allows for more accurate revenue forecasting.
- **FRANCHISING AND LICENSING:** a company can license its brand and business model to franchisees or partner for a fee. This is a lucrative option if the business model is successful and easily replicable as seen with large-food chains.

SUPPLEMENTARY REVENUE STREAMS

- **PARTNERSHIPS AND SPONSORSHIPS:** collaborate with other businesses that have similar customer base but offer complimentary products or services. This can include joint promotions, shared resource or sponsorships deals to expand reach and generate income.
- **AFFILIATE MARKET:** earn a commission by promoting products or services from other companies on your own platform.
- **DATA SALES:** if the company has access to valuable data, it can be anonymized and sold to other business.

CHOOSING THE BEST MODEL: the best approach is often to use combination of models tailored for each brand.

Formatted: Font: Aptos, 14 pt, Underline

Formatted: Body Text Indent 2, Indent: Left: 2,27 cm

- A company might use One-Time sales for its flagship retail brand while offering a subscription service for digital product and then its brand for use on merchandise.
- A strong, partnerships with other businesses can create bundles offers or shared resources to help expand bases across all brands.

12. ~~Auditors~~AUDITORS

Formatted: Underline

Appointment & Mandate

To maintain flawless accountability, Independent Registered Auditors registered with the Independent Regulatory Board for Auditors (IRBA) will be formally appointed annually.

- Primary Scope: Conduct objective annual financial audits, certify financial statements for public and private stakeholder evaluation, and verify compliance frameworks.
- Internal Oversight Integration: Audit evaluations will systematically match standard bank requirements and small enterprise grant compliance rules (p. 23)

13. Governance Structure

Corporate Structure Matrix

The executive decision-making hierarchy enforces distinct lines of brand management authority (p. 18):

Formatted: Left, No bullets or numbering

Mandated Roles & Responsibilities (p. 18):

1. Director (Accounting Officer): Assumes ultimate fiduciary accountability, oversees macro resource allocation, and certifies absolute legislative alignment.

2. Brand Managers: Oversee daily performance metrics, execute localized supply chains, control quality, and submit weekly workflow performance reports (pp. 7, 18)

STATEMENT OF PFMA SECTION 38(j) COMPLIANCE **Explicit Compliance Affirmation**

"As a proudly black-owned South African enterprise actively seeking long-term partnerships with public and private stakeholders (pp. 2, 4), The Incredible Hustle Pty (Ltd) hereby affirms complete operational alignment with the requirements of Section 38(1)(j) of the Public Finance Management Act (PFMA), Act 1 of 1999. The company establishes, maintains, and rigorously implements effective, efficient, and transparent financial management and internal control systems. We provide written assurances to any transferring government organ or department that all public funds received are transparently tracked, isolated via unique ledger accounts, and strictly applied to their intended socio-economic development purposes.

Alignment with Strategic Partners & Memorandum of Agreement (MoA) (p. 10):

- **Seda Coordination:** Adheres to the foundational small business development guidelines established by the Small Enterprise Development Agency (Seda).
- **Municipal Bylaw Accordance:** Enforces continuous corporate compliance with the [City of Matlosana Local Municipality](#) local economic development and trading regulations

14. KEY PERFORMANCE INDICATOR (KPI) TARGETS

The operational health across the multi-brand ecosystem will be meticulously reviewed utilizing the following target criteria (pp. 7-8):

- **Utilization Rate Target:** Minimum 75% of employee operational hours dedicated exclusively to direct revenue-generating tasks (p. 8).
- **Project Success Rate:** 90% of crop production cycles and catering events finalized precisely on schedule and underneath allocated budgets (pp. 8, 11).

Overall Equipment Effectiveness (OEE): Minimum 80% manufacturing score across all agro-processing machinery (p. 7).

- **Customer Acquisition Cost (CAC):** Maintained below 12% of gross order values through hyper-localized WhatsApp and social media campaigns (pp. 7, 10).

16.1 ~~Cash Flow Projection~~³CASH FLOW PROJECTIONS

To complete your financial projection, we must translate your strategic goals into a 12-month operational forecast. Given your location in Klerksdorp and focus on **The Incredible Hustle Pty(Ltd)** as a multi-brand entity, the following projections focus on your primary driver: **Agriculture**, with integrated retail and service lines.

1. Estimated Startup & Expansion Costs (2025)

To address the "outsourcing of equipment" challenges you noted in 2024, your capital expenditure (CAPEX) should focus on ownership. To complete your financial projection, we must translate your strategic goals into a 12-month operational forecast. Given your location in Klerksdorp and focus on **The Incredible Hustle Pty(Ltd)** as a multi-brand entity, the following projections focus on your primary driver: **Agriculture**, with integrated retail and service lines.

Item	Estimated Cost (ZAR)	Purpose
Agricultural Equipment	R120,000	Small tractor/tiller, irrigation, tools
Retail/Fashion Inventory	R35,000	Initial stock for multi-brand sales
Marketing & Branding	R15,000	Professional digital presence & signage
Working Capital (3 Months)	R90,000	Buffer for salaries and utilities
Total Funding Required	R260,000	Initial investment to scale

2. 12-Month Sales Forecast (October 2025 – September 2026)

This forecast assumes a phased rollout of your multi-brand model.

- **Q4 2025 (Oct - Dec):** Focus on service delivery and retail.

- *Target Revenue: R45,000 / month*
- **Q1-Q2 2026 (Jan - Jun):** First major harvest and expanded mentoring programs.
 - *Target Revenue: R65,000 / month*
- **Q3 2026 (Jul - Sep):** Full operational capacity across all sectors.
 - *Target Revenue: R85,000 / month*

Next Steps for Completion

- **Refine Salary Figures:** Adjust the salary budget based on the specific number of youth/women you plan to hire.
- **Get Local Quotes:** Use the Klerksdorp Business Directory to get actual quotes for rent and equipment to replace these estimates.
- **Tax Compliance:** Ensure you register for VAT if your annual turnover is projected to exceed R1 million, and consult the [SARS Small Business Guide](#) for specific deductions.
